

## STATION DIALS 9-TYPE IDENTIFICATION AND MAINTENANCE

### 1. GENERAL

- 1.001 This addendum supplements Section 501-162-101, Issue 5.
- 1.002 This addendum is issued to add information on Low Torque Dials for the handicapped.

The following change applies to Part 1 of this section:

- (a) 1.02--added

- 1.02 A low torque dial is available for use by handicapped persons. The dial is the same as the standard 9-type dial except the motor spring returns have been reduced to provide minimal torque. It may be obtained by adding "Low Torque Dial" to the ordering information for the standard 9-type dial.
