Find It Fast
In The
'Yellow Pages'

I CAN PUT YOUR LONG DISTANCE
CALLS THROUGH FASTER

When You **CALL BY NUMBER**

When you give the Long Distance operator the out-of-town number, she doesn't have to consult "Information" in the distant city and your call goes through faster. To help you call by number the page opposite the inside back cover of this directory has been reserved for your convenience in recording needed numbers.

There is a reduction in Long Distance rates between the hours of 6:00 P.M. and 4:30 A.M. and all day Sunday. Reduced rates also apply on some holidays. Information concerning long distance rates may be obtained by calling Long Distance.

Long Distance Rates Are Low

FOR RATES TO ANYWHERE, JUST CALL YOUR
LONG DISTANCE OPERATOR

(These sample rates are for three-minute station-to-station calls, after 6 P.M. and on Sunday. Federal excise tax not included.)

Rocky Mount To:	Rocky Mount To:

PLACE YOUR CALLS BY NUMBER
... IT'S TWICE AS FAST

Use the handy Blue Book of Telephone Numbers to keep a list of the numbers you frequently call. Keep it by your telephone for easy reference and to jot down numbers you get from the Operators . . . either Long Distance or Local.

CALL OUR BUSINESS OFFICE FOR YOUR BLUE BOOK

"WARNING: The law of North Carolina provides that any person who shall wilfully refuse to immediately relinquish a party telephone line when informed that such line is needed for an emergency call to a fire department or police department, or for medical aid or ambulance service, shall be guilty of a misdemeanor. Such law also provides that any person who shall secure the use of a party telephone line by falsely stating that such line is needed for an emergency call, shall be guilty of a misdemeanor."

LONG DISTANCE NUMBERS FREQUENTLY CALLED

[illegible]

A NEW AND FASTER SERVICE

DIRECT DISTANCE DIALING

ALL ROCKY MOUNT telephone users (except from coin telephones) can dial their own station-to-station long distance calls to many points. This is known as Direct Distance Dialing and is available also to all ENFIELD, NASHVILLE, SPRING HOPE and WHITAKERS customers. Low-cost rates for station-to-station calls apply; place other calls with the operator.

YOU CAN DIAL YOUR OWN station-to-station calls (when you will talk to anyone at the called telephone) to the places listed. This faster and cheaper service is at your fingertips. Look on the following pages of this directory and see that the place you want to call can be reached by dialing; write down the code if one is listed beside the town—

THEN—If you KNOW the telephone number—

FIRST—Dial the “access code” 120

SECOND—Dial the area or special code, if needed

THIRD—Dial the telephone number just as you do on a local call. If you keep the number in front of you while dialing you will lessen the chance of errors or of pausing too long which may release the equipment and prevent the call from being completed.

If you DON'T KNOW the telephone number—

FIRST—Dial “Operator” and tell her you want “Information” in the town you are calling; for example, “I want information for a number in Norfolk, Virginia.”

SECOND—When she connects you with the Norfolk operator ask for the telephone number you want and write it down. There is no charge for this service.

THIRD—Hang up briefly and dial the access code. Dial the area or special code, if needed. Dial the telephone number as described above.

AN OPERATOR WILL ASK YOU FOR YOUR NUMBER on calls you place by Direct Distance Dialing after you have dialed the call. Give her the number of your telephone—not the number of the person you are trying to call.

IF YOU HAVE DIFFICULTY when dialing a long distance call, or if any telephone other than the one desired answers you—

1. Try to determine the city and telephone number you have reached; then—
2. Dial your “Operator” IMMEDIATELY and tell her what has happened so that you will not be billed for the call.

If you are cut off, or cannot complete your call, or have other difficulty, dial your “Operator” and report it to her promptly so that she can assist you.

YOU WILL NOT BE CHARGED IF—

1. The number you dial is busy. Hang up and try again later.
2. No one answers the called telephone.
3. You reach an operator who tells you the number you are calling has been changed or disconnected.
4. You reach the number you are calling but it has recently been assigned to another person—provided you report this to your operator promptly.

CONTINUE TO DIAL “OPERATOR” FOR CALLS SUCH AS person-to-person, collect, credit card, from coin telephones, when you want time and charges, and to towns not listed here.

DIRECT DISTANCE DIALING

To Call These North Carolina Places In Your Own Dialing Area

... dial 120, then the telephone number (either two letters and five numerals or seven numerals, whichever the case may be). For example, to call Aurora, N. C. WEBster 8-2991 just dial 120 WE 8-2991. To call Wilson, N. C. 23 7-9199 just dial 120 23 7-9199.

Modern LOW-COST TELEPHONE CONVENIENCES

| For Home and Office

TELEPHONES IN NINE DECORATOR COLORS

Imagine the beauty and style added to your home and office by having telephones in smart new colors to blend, contrast or harmonize with each decorative scheme.

NIGHT LIGHT TELEPHONES

A low burning light glowing on the dial makes it easy to find in the dark. Lift the receiver and the light comes on to full brilliance. A real convenience.

ADDITIONAL TELEPHONES

Whatever your type or size home, we have a low-cost telephone convenience plan to fit your needs. Actually, you can have extra phones—in color too, for less additional cost each month than you now pay for your main telephone.

VOLUME CONTROL TELEPHONES

Ideal for those with impaired hearing. Brings in softest voices loud and clear.

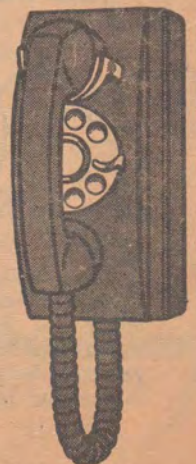

SPRING CORDS

Does away with long, trailing telephone wires. Replaces them with a short one that curls up naturally—takes up less space. In harmonizing colors, too!

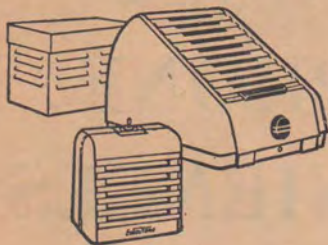

WALL TELEPHONES

Beautiful, Modern Space Saving Telephones bring added convenience in the kitchen, game room and work shop. Available in a number of smart colors.

SCHOOL-TO-HOME TELEPHONE SERVICE

Two-way communication between classroom and home for handicapped students, permits participation in the work of the class. Inexpensive, practical way for confined student to keep up with rest of class.

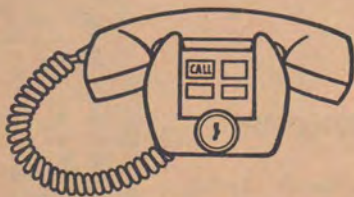

PORTABLE LOUDSPEAKER TELEPHONE SET

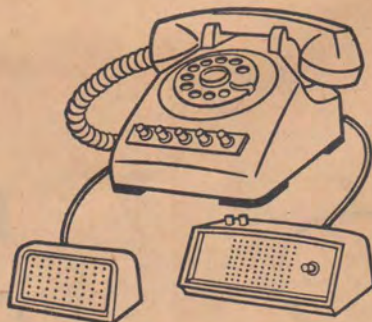

Amplifies both sides of a telephone conversation for group meetings. Consists of amplifier, loudspeaker and microphone. Additional loudspeakers can be provided for larger audiences.

MOBILE TELEPHONE SERVICE

Hundreds of professional people and service companies who have telephones in automobiles or trucks have found this service invaluable, because they can keep in touch while on the go.

SPEAKERPHONE

You can make or receive calls without lifting the handset. Ideal for desk-side conferences in which two or three people can talk and listen on the same conversation. Convenient in the home for the housewife or for any family group.

ADDITIONAL DIRECTORY LISTINGS

[illegible]

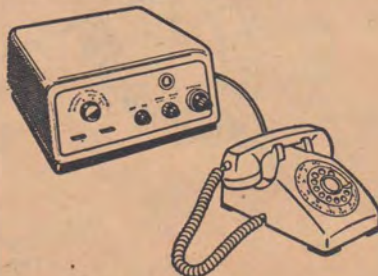

Personal name listings are valuable to members of your family or household and to your business. Members of the family or firm will not miss important calls. It's smart to be easy to find.

TELEPHONE SERVICE

| Time Saver in Your Business

Step Saver in Your Home

TELEPHONE ANSWERING SET

Automatically answers your telephone and gives the caller your recorded message. Callers may leave messages or orders for you. Improves customer service and goodwill.

YELLOW PAGES

People everywhere use the yellow pages to find products and services they need when in a buying frame of mind. Be sure they can find your products and services under each heading which describes your business.

Today's Living Puts TELEPHONES at Your Finger-Tips

Today's modern living dictates telephones in living, working, sleeping and playing areas of the home

BEDROOM TELEPHONES

Within arm's reach enable you to easily answer or place calls after you have retired.

IN THE LIVING ROOM AND DEN

A telephone in the Living Room adds convenience . . . and equipped with a push button on the base it can be used for signalling other telephone locations.

TELEPHONES FOR OUTDOORS

A handy telephone outdoors on the patio will eliminate the need of dashing into the house to answer calls. Available with waterproof jack and plug.

KITCHEN TELEPHONES

Are handy for the housewife where she spends so much of her time. Saves running to other rooms.

WORK SHOP TELEPHONES

Telephones in the workshop, laundry and recreation room are convenient . . . they are heart savers. No running up and down stairs.

TELEPHONE PLANNING

Telephones today should be located throughout the home for the most in comfort, convenience and protection. Before building or remodeling, call our "Telephone Planning Service" for recommendations as to the service which best fits your particular needs.

EFFICIENT COMMUNICATIONS

For Every Business

Efficient telephone service means the right amount and kind of equipment, at the right location, for the right person to put to the right use.

TELEPHONE ANSWERING SET

Automatically answers when you are out, gives all callers your message and records any message or orders left for you. Do not miss important calls.

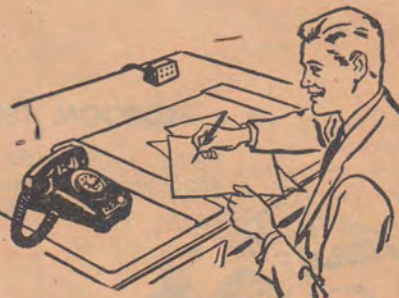

SEVERAL TELEPHONES IN ONE

The push-button phone enables the businessman to place, answer or hold calls on any one of several lines in one instrument. Provides privacy, interoffice conversations and signalling. Available in color.

PRIVATE BRANCH EXCHANGES

The cordless switchboard is designed for small and medium-sized businesses. Easy to operate and to look at. This one handles 5 incoming lines and 12 extensions; a smaller one 3 incoming lines and 7 extensions.

SPEAKERPHONE

No need to use your hands to make or receive calls over this telephone. Ideal for desk-side discussions where several people can talk and listen on the same conversation.

TELETYPEWRITER SERVICE

This service does for the written word what the telephone does for the spoken word. The speed, accuracy and efficiency of teletypewriter service are doubly useful today with more automation in business record-keeping and data-processing. Private line service tailored to meet your needs is also available.

TELEPHONE PLANNING SERVICE

When building or remodeling commercial and industrial buildings, remember it costs very little to provide outlets for telephone service. Let us consult with you, your architect or builder. Call for "Telephone Planning Service."

YOUR TELEPHONE SERVICING REPRESENTATIVE WILL BE GLAD TO SUGGEST COMMUNICATIONS TAILORED TO YOUR BUSINESS.

Carolina Telephone and Telegraph Company

ENFIELD, N. C.

R. E. DIXON, Manager
143 N. Washington St., Rocky Mount, N. C.
Telephone GI 6-9011

INSTRUCTIONS

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. If after talking, you wish to make a second call, hang up your receiver for about five seconds, remove the receiver and dial again.

The first two letters of each number indicate the exchange name. The first four figures of each number indicate the line number and the last figure indicates the ringing code. For instance, the number Hillcrest 5-2201 represents line number 5-220 and ringing code number 1; the number Hillcrest 5-2286 represents line number 5-228 and the ringing code number 6. The ringing codes are as follows:

Hillcrest 5-2215.....	5.....	1 long & 1 short ring
Hillcrest 5-2216.....	6.....	1 long ring
Hillcrest 5-2217.....	7.....	2 short rings
Hillcrest 5-2218.....	8.....	3 short rings
Hillcrest 5-2219.....	9.....	4 short rings
Hillcrest 5-2210.....	0.....	1 long & 1 short ring

PARTY LINE SUBSCRIBERS—

To call a subscriber on your own line, first take down your receiver. When dial tone is heard dial No. 16 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. Your telephone bell will ring indicating to you that the telephone of the number desired is also ringing. When your bell stops ringing it indicates that the called party has answered his telephone. Lift your receiver and talk.

Ring on your own telephone may be stopped by momentarily removing your own receiver from the hook.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking will cause the line to disconnect.

Tel. No.	Code No.	Ringling Code
Hillcrest 5-2211.....	1.....	1 long ring
Hillcrest 5-2212.....	2.....	2 short rings
Hillcrest 5-2213.....	3.....	3 short rings
Hillcrest 5-2214.....	4.....	4 short rings

Carolina Telephone and Telegraph Company

NASHVILLE, N. C.

R. E. DIXON, Manager
143 N. Washington St., Rocky Mount, N. C.
Telephone GI 6-9011

INSTRUCTIONS

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. If after talking, you wish to make a second call, hang up your receiver for about five seconds, remove the receiver and dial again.

The first two letters of each number indicate the exchange name. The first four figures of each number indicate the line number and the last figure indicates the ringing code. For instance, the number GLendale 9-2201 represents line number 9-220 and ringing code number 1; the number GLendale 9-2286 represents line number 9-228 and the ringing code number 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
GLendale 9-2211.....	1.....	1 long ring
GLendale 9-2212.....	2.....	2 short rings
GLendale 9-2213.....	3.....	3 short rings
GLendale 9-2214.....	4.....	4 short rings

GLendale 9-2215.....	5.....	1 long & 1 short ring
GLendale 9-2216.....	6.....	1 long ring
GLendale 9-2217.....	7.....	2 short rings
GLendale 9-2218.....	8.....	3 short rings
GLendale 9-2219.....	9.....	4 short rings
GLendale 9-2210.....	0.....	1 long & 1 short ring

PARTY LINE SUBSCRIBERS—

To call a subscriber on your own line, first take down your receiver. When dial tone is heard dial No. 16 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. Your telephone bell will ring indicating to you that the telephone of the number desired is also ringing. When your bell stops ringing it indicates that the called party has answered his telephone. Lift your receiver and talk.

Ringing on your own telephone may be stopped by momentarily removing your own receiver from the hook.

Do not move receiver hook up and down. This will cause wrong numbers. or if you are talking will cause the line to disconnect.

TELEPHONE SERVICE AND EMERGENCY CALLS

Long Distance.....	Dial 0
Information—Numbers Not Listed in Directory.....	Dial "0" and ask for "Information"
TO REPORT DIFFICULTY	
With a Local or Long Distance Call.....	Dial 0

Carolina Telephone and Telegraph Company

SPRING HOPE, N. C.

R. E. DIXON, Manager
143 N. Washington St., Rocky Mount, N. C.
Telephone GI 6-9011

INSTRUCTIONS

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. If after talking, you wish to make a second call, hang up your receiver for about five seconds, remove the receiver and dial again.

The first two letters of each number indicate the exchange name. The first four figures of each number indicate the line number and the last figure indicates the ringing code. For instance, the number GRanite 8-2201 represents line number 8-220 and ringing code number 1; the number GRanite 8-2286 represents line number 8-228 and the ringing code number 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringling Code
GRanite 8-2211.....	1.....	1 long ring
GRanite 8-2212.....	2.....	2 short rings
GRanite 8-2213.....	3.....	3 short rings
GRanite 8-2214.....	4.....	4 short rings
GRanite 8-2215.....	5.....	1 long & 1 short ring

GRanite 8-2216.....	6.....	1 long ring
GRanite 8-2217.....	7.....	2 short rings
GRanite 8-2218.....	8.....	3 short rings
GRanite 8-2219.....	9.....	4 short rings
GRanite 8-2210.....	0.....	1 long & 1 short ring

PARTY LINE SUBSCRIBERS—

To call a subscriber on your own line, first take down your receiver. When dial tone is heard dial No. 16 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. Your telephone bell will ring indicating to you that the telephone of the number desired is also ringing. When your bell stops ringing it indicates that the called party has answered his telephone. Lift your receiver and talk.

Ringling on your own telephone may be stopped by momentarily removing your own receiver from the hook.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking will cause the line to disconnect.

 of town by telephone.*

It's friendly

It's cheap

Carolina Telephone and Telegraph Company

WHITAKERS, N. C.

R. E. DIXON, Manager
143 N. Washington St., Rocky Mount, N. C.
Telephone GI 6-9011

INSTRUCTIONS

HOW TO DIAL—(General) :

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. If after talking, you wish to make a second call, hang up your receiver for about five seconds, remove the receiver and dial again.

The first two letters of each number indicate the exchange name. The first four figures of each number indicate the line number and the last figure indicates the ringing code. For instance, the number GEneral 7-2201 represents line number 7-220 and ringing code number 1; the number GEneral 7-2286 represents line number 7-228 and the ringing code number 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
GEneral 7-2211.....	1.....	1 long ring
GEneral 7-2212.....	2.....	2 short rings
GEneral 7-2213.....	3.....	3 short rings
GEneral 7-2214.....	4.....	4 short rings
GEneral 7-2215.....	5.....	1 long & 1 short ring

GEneral 7-2216.....	6.....	1 long ring
GEneral 7-2217.....	7.....	2 short rings
GEneral 7-2218.....	8.....	3 short rings
GEneral 7-2219.....	9.....	4 short rings
GEneral 7-2210.....	0.....	1 long & 1 short ring

PARTY LINE SUBSCRIBERS—

To call a subscriber on your own line, first take down your receiver. When dial tone is heard dial No. 16 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. Your telephone bell will ring indicating to you that the telephone of the number desired is also ringing. When your bell stops ringing it indicates that the called party has answered his telephone. Lift your receiver and talk.

Ringing on your own telephone may be stopped by momentarily removing your own receiver from the hook.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking will cause the line to disconnect.

TELEPHONE SERVICE AND EMERGENCY CALLS

Long Distance.....	Dial 0
Information — Numbers Not Listed in Directory.....	Dial "0" and ask for "Information"
TO REPORT DIFFICULTY

And Business

Call Your Local
Telephone Business
Office For Further
Details

TELEPHONES FOR THE HARD OF HEARING

Telephone has volume control dial (see arrow) just like that on your radio. Amplifier increases or decreases volume as desired by subscriber.

MULTI-LINE TELEPHONES

Enables subscriber to use any one of up to four outside lines as well as intercommunicate within own business establishment or institution. Subscriber also can hold one line while he contacts second party over another line. Illuminated buttons (see arrow) indicate lines in use.

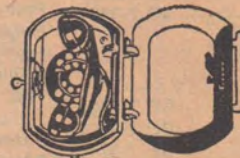

ELECTRONIC SECRETARIES

Automatic answering and recording device answers your telephone while you are away and records message of calling party. Plays back message upon your return.

OUTDOOR TELEPHONES

Weather proof telephones for installation outdoors. Ideal for use in back yards, or on construction projects or other outdoor locations where telephone communication is desired.

SUBSCRIBER TRANSFER UNITS

A flip of a key transfers business calls to your home when you leave the office. Ideal for doctors, insurance or other professional men.

CONFIDENCERS

Telephone with special transmitter which helps eliminate outside or shop noises in such places as garages, busy stenographic offices or public establishments.

SCHOOL-TO-HOME SERVICE

Enables convalescing or bed-ridden youngsters to take part in classroom discussions from their bed at home.

CAROLINA TELEPHONE and TELEGRAPH COMPANY
